

URAVAKONDA KULLAYAPPA

AI/GenAI Engineer | Software Engineer

ukullayappa1@gmail.com | +91 95159 90059 | [linkedin.com/in/uravakonda-kullayappa-57a326368](https://www.linkedin.com/in/uravakonda-kullayappa-57a326368) | github.com/Ukullayappa | my-portfolio-pi-eight-18.vercel.app

PROFESSIONAL SUMMARY

Early-career Software Engineer with hands-on experience building AI-powered and agentic applications using Python, FastAPI, LangChain, and LangGraph, alongside a solid foundation in full-stack web development (React.js, Node.js, PostgreSQL). Built and shipped projects spanning LLM-driven agent workflows, RAG, prompt engineering, and REST API design, including a stateful trip-planning agent and an AI job-search automation platform. Combines an Electronics & Communication Engineering background with practical software engineering skills in OOP, data structures & algorithms, and Git/GitHub CI-CD. Eager to build scalable, production-grade AI software products.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), Java, SQL

Generative AI / LLM Engineering: LLMs, LangChain, LangGraph, CrewAI, Prompt Engineering, Function Calling, Structured Outputs, RAG, AI Agents

Backend & APIs: FastAPI, Node.js, Express.js, REST APIs, Pydantic, Passport.js, Session Management

Databases: PostgreSQL, SQL

Frontend: React.js, Bootstrap, Responsive Web Design, Component-Based Architecture

Automation & Testing: Playwright (Browser Automation), Debugging, Code Reviews

Engineering Practices: Git, GitHub, GitHub Actions (CI/CD), OOP, Data Structures & Algorithms, VS Code

EXPERIENCE

Web Development Intern | SQROCK IT Solutions

Jun 2026 – Jul 2026 (1 month)

- Independently built a web application based on a provided feature specification document, translating requirements into a working product using React.js, Node.js, and PostgreSQL.
- Owned debugging and testing for the assigned scope to ensure the application matched requirements.

PROJECTS

AI Trip Planner Agent

github.com/Ukullayappa/AI-Tip-plan-Agent

FastAPI, LangChain, LangGraph, Groq, Tavily API, Weather API

- Built an agentic trip-planning assistant using FastAPI and LangGraph for multi-step workflow orchestration.
- Integrated the Groq LLM API, Tavily search API, and a Weather API to generate real-time, context-aware recommendations.
- Designed stateful agent workflows demonstrating tool use, API integration, and reasoning over multiple data sources.

AI-Powered LinkedIn Job Search & Assisted Application System

github.com/Ukullayappa/AI-powered-LinkedIn-job-search-and-assisted-application-system

Python, FastAPI, Playwright, CrewAI, React, Local JSON Storage

- Built an AI-assisted job automation platform using FastAPI and Playwright.
- Analyzed uploaded resumes to identify relevant skills and recommend matching jobs.
- Automated Easy Apply workflows including form filling, resume upload, and navigation, with human-in-the-loop review before submission.
- Implemented job ranking based on resume–job description similarity.

Full Stack E-Commerce Web Application

hubelectro.vercel.app

React.js, Node.js, Express.js, PostgreSQL, Passport.js, REST APIs

- Built an end-to-end e-commerce platform with authentication, cart management, and order processing.
- Designed 10+ RESTful API endpoints for CRUD operations and session handling.
- Implemented role-based access control with server-side session management.

EDUCATION

B.Tech – Electronics & Communication Engineering

2022 – 2026

Ananthalakshmi Institute of Technology and Sciences, Andhra Pradesh | CGPA: 7.8/10

Intermediate (MPC – Mathematics, Physics, Chemistry)

2020 – 2022

Sri Sai Krupa Junior College | 81.9%

SSC (Secondary School Certificate)

2020

Sri Gayatri English Medium School | 100%

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp — Udemy (Dr. Angela Yu), May 2026
